## A Clerk Here Talks About "Take Home" Pay

Standing behind a counter in a Washington C. H. store where he works, a clerk. wearing a worried frown, was accosted by a Record-Herald man the other day with, "You look like you had lost your best friend.'

"It isn't that", he said, "its this that bothers me" and he pointed to a slip of paper in his hand containing two or three rows

"I have been trying to find some way to meet my family's ordinary living expenses" he continued. "We live simply, no extravagance, but believe me it's a job for me or any other average 'white collar' worker in my class today. No one is giving much attention to how we make out. There are various groups who have lobbyists fighting their battles but most politicians who create new taxes pay little or no attention to us. I suppose we are what they call the 'little people' and we have to get along the best we can".

With no customer to claim his immediate attention this clerk jabbed his finger at the figures he had been studying and remarked, adequate for all my family's modest needs. Now it keeps me jumping to make ends meet, and as for any vacation trip, well, that is not to be thought of."

"I do not blame my employers", he went on. "I believe they are paying me all they can afford. The average small business in a city like this has plenty of money problems of its own. No, my trouble is this thing they are calling 'inflation', higher prices and constantly increasing taxes. Now, they tell me, the government is about to take another slice of my pay. I also hear that there is talk of higher taxes here at home to meet present and probably some new expenses.

That bare-

"Barbers know very well that

**About Barbers and the Baldies** 

Maybe these are needed but all I know is that my 'take home' pay, out of which also must come my regular home taxes, (city, county, school, etc.), seems to get smaller and smaller, or else it buys less and less."

We must admit that here is a situation mentioned by this clerk that is close to the heart of all of us who are in the class known as the average citizens of modest means.

The important thing to any salaried man or wage earner is his "take home" pay--the amount of money he actually receives after all deductions, when each payday comes

More than one man in this class has been heard to remark, "I don't know how I could make out if my wife also wasn't working".

The government through taxes, is cutting down our "take home" pay more and more. We have too many government planners trying to sell their ideas of government-inbusiness on the idea of giving the people "something for nothing", but in the long run the little fellow pays for it directly or indirectly as well as the big taxpayer.

It is becoming alarmingly apparent to more and more people that the way to protect their "take home" pay is to demand and work for the strictest kind of government economy, national, state and local, and to oppose the further schemes for governmentin-business whether that business be merchandising, farming, manufacturing or any-

If we don't show that we are interested and that we mean what we are thinking about, the bureaucrats, promoters and the "spend, spend, spend" boys will clip our "take home" pay, from which must come drinker results in so many un- heart beats rapidly. tricked and it is necessary to be

poses, might be utterly disastrous

this which seems to have been missed. Why did Russia make come from Soviet China? Why did

I note that some of the Europeans compare it to Malik's proposal concerning the Berlin airlift. The cases are not analogous, except under one condition:

In the matter of the Berlin airift, the contention was between the United States and Soviet Russia. In Korea, the contest is between the United States and Soviet China. Not a Russian has fought in the Korean war. Russia has heretofore assumed no responsibility for the Korean

Why then has Soviet Russia suddenly intervened? This must be noted: The Soviet world is one world. Whether it is war in North Korea, a speech by Togliatti in Italy or an article in the New York "Daily Worker," or the treatment of Christian missionaries in China or Catholic priests Hungary -- all decisions are finally made in the Kremlin. It is the totality of the "one world" dea, with central control.

nials Russia may have made in he past, Malik represents the ed, the voice of the United States areality of the Korean situation, namely, that the effective principal is Soviet Russia and Soviet China is functioning as a proxy for Russia.

If Soviet Russia is assuming responsibility for this Korean war, ator and opens all the questions the Paris conference has been im-In a word, the real danger is

Nagging Backache

Nagging backache, loss of pep and energy.

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffernagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diurctic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 mileaof kidney tubes and filters flush out waste.
